

## 1 VIRGINIA ACTS OF ASSEMBLY — CHAPTER

2 *An Act to amend and reenact § 62.1-44.38:1 of the Code of Virginia, relating to comprehensive water*  
 3 *supply planning process.*

[H 1297]

5 Approved

6 **Be it enacted by the General Assembly of Virginia:**7 **1. That § 62.1-44.38:1 of the Code of Virginia is amended and reenacted as follows:**8 **§ 62.1-44.38:1. Comprehensive water supply planning process; state, regional, and local water**  
 9 **supply plans.**

10 A. The Board, with advice and guidance from the Commissioner of Health, local governments,  
 11 public service authorities, and other interested parties, shall establish a comprehensive water supply  
 12 planning process for the development of local, regional, and state water supply plans consistent with the  
 13 provisions of this chapter. This process shall be designed to (i) ensure that adequate and safe drinking  
 14 water is available to all citizens of the Commonwealth; (ii) encourage, promote, and protect all other  
 15 beneficial uses of the Commonwealth's water resources; (iii) encourage, promote, and develop incentives  
 16 for alternative water sources, including desalinization; and (iv) encourage the development of  
 17 cross-jurisdictional water supply projects.

18 B. The Board shall adopt regulations designating regional planning areas based primarily on river  
 19 basins *as appropriate based on water supply sources. The Board shall consider existing*  
 20 *interjurisdictional arrangements in designating regional planning areas.* The Board may, as appropriate,  
 21 designate multiple regional planning areas within a single river basin in order to enhance the  
 22 manageability of planning within such basin. The regulations shall identify the particular regional  
 23 planning area in which each locality shall participate and shall state which local stakeholder groups,  
 24 including local governments, industrial and agricultural water users, public water suppliers, developers  
 25 and economic development organizations, and conservation and environmental organizations, shall or  
 26 may participate in coordinated water resource planning. *The regulations shall further provide a*  
 27 *mechanism for a locality to request a change of its designated regional planning area to an adjoining*  
 28 *planning area that is based on water supply source, river basin, or existing or planned*  
 29 *cross-jurisdictional relationship, which change shall be effective upon approval of the Department,*  
 30 *notwithstanding the provisions of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2.*

31 C. 1. Each locality in a regional planning area shall participate in cross-jurisdictional, coordinated  
 32 water resource planning. Such local coordination shall accommodate existing regional groups that have  
 33 already developed water supply plans, including planning district commissions, and other regional  
 34 planning entities as appropriate.

35 2. Each locality in a regional planning area shall develop and submit, with the other localities in that  
 36 planning area, a single jointly produced regional water supply plan to the Department of Environmental  
 37 Quality (the Department). Such regional water supply plan shall (i) clearly identify the region's water  
 38 supply risks and (ii) propose regional strategies to address those water supply risks.

39 3. Each regional water supply plan also shall comply with applicable criteria and guidelines  
 40 developed by the Board. Such criteria and guidelines shall take into account existing local and regional  
 41 water supply planning efforts and requirements imposed under other state or federal laws. The criteria  
 42 and guidelines established by the Board shall not prohibit a town from entering into a regional water  
 43 supply plan with an adjacent county in the same regional planning area.

44 4. This section is intended to inform any regional water resource planning being done in the  
 45 Commonwealth pursuant to interstate compacts.

46 D. The Board and the Department shall prioritize the allocation of planning funds and other funds to  
 47 localities that sufficiently participate in regional planning.

48 E. In accordance with subdivision B 2 of § 62.1-44.38, the Department shall facilitate regional  
 49 planning and provide assistance to each regional planning area as needed.
