Referred to Committee on Commerce and Labor

Be it enacted by the General Assembly of Virginia:

1. That §§ 32.1-325 and 38.2-4319, as it is currently effective and as it may become effective, of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding a section numbered 38.2-3418.21 as follows:

§ 32.1-325. Board to submit plan for medical assistance services to U.S. Secretary of Health and Human Services pursuant to federal law; administration of plan; contracts with health care providers.

A. The Board, subject to the approval of the Governor, is authorized to prepare, amend from time to time, and submit to the U.S. Secretary of Health and Human Services a state plan for medical assistance services pursuant to Title XIX of the United States Social Security Act and any amendments thereto. The Board shall include in such plan:

1. A provision for payment of medical assistance on behalf of individuals, up to the age of 21, placed in foster homes or private institutions by private, nonprofit agencies licensed as child-placing agencies by the Department of Social Services or placed through state and local subsidized adoptions to the extent permitted under federal statute;

2. A provision for determining eligibility for benefits for medically needy individuals which disregards from countable resources an amount not in excess of \$3,500 for the individual and an amount not in excess of \$3,500 for his spouse when such resources have been set aside to meet the burial expenses of the individual or his spouse. The amount disregarded shall be reduced by (i) the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources and (ii) the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting the individual's or his spouse's burial expenses;

3. A requirement that, in determining eligibility, a home shall be disregarded. For those medically needy persons whose eligibility for medical assistance is required by federal law to be dependent on the budget methodology for Aid to Families with Dependent Children, a home means the house and lot used as the principal residence and all contiguous property. For all other persons, a home shall mean the house and lot used as the principal residence, as well as all contiguous property, as long as the value of the land, exclusive of the lot occupied by the house, does not exceed \$5,000. In any case in which the definition of home as provided here is more restrictive than that provided in the state plan for medical assistance services in Virginia as it was in effect on January 1, 1972, then a home means the house and lot used as the principal residence and all contiguous property essential to the operation of the home regardless of value;

4. A provision for payment of medical assistance on behalf of individuals up to the age of 21, who are Medicaid eligible, for medically necessary stays in acute care facilities in excess of 21 days per admission;

5. A provision for deducting from an institutionalized recipient's income an amount for the maintenance of the individual's spouse at home;

6. A provision for payment of medical assistance on behalf of pregnant women which provides for payment for inpatient postpartum treatment in accordance with the medical criteria outlined in the most current version of or an official update to the "Guidelines for Perinatal Care" prepared by the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists or the "Standards for Obstetric-Gynecologic Services" prepared by the American College of Obstetricians and Gynecologists. Payment shall be made for any postpartum home visit or visits for the mothers and the children which are within the time periods recommended by the attending physicians in accordance with and as indicated by such Guidelines or Standards. For the purposes of this subdivision, such Guidelines or Standards shall include any changes thereto within six months of the publication of such Guidelines

SB344

59 or Standards or any official amendment thereto;

60 7. A provision for the payment for family planning services on behalf of women who were
61 Medicaid-eligible for prenatal care and delivery as provided in this section at the time of delivery. Such
62 family planning services shall begin with delivery and continue for a period of 24 months, if the woman
63 continues to meet the financial eligibility requirements for a pregnant woman under Medicaid. For the
64 purposes of this section, family planning services shall not cover payment for abortion services and no
65 funds shall be used to perform, assist, encourage or make direct referrals for abortions;

66 8. A provision for payment of medical assistance for high-dose chemotherapy and bone marrow
67 transplants on behalf of individuals over the age of 21 who have been diagnosed with lymphoma, breast
68 cancer, myeloma, or leukemia and have been determined by the treating health care provider to have a
69 performance status sufficient to proceed with such high-dose chemotherapy and bone marrow transplant.
70 Appeals of these cases shall be handled in accordance with the Department's expedited appeals process;

71 9. A provision identifying entities approved by the Board to receive applications and to determine
72 eligibility for medical assistance, which shall include a requirement that such entities (i) obtain accurate
73 contact information, including the best available address and telephone number, from each applicant for
74 medical assistance, to the extent required by federal law and regulations, and (ii) provide each applicant
75 for medical assistance with information about advance directives pursuant to Article 8 (§ 54.1-2981 et
76 seq.) of Chapter 29 of Title 54.1, including information about the purpose and benefits of advance
77 directives and how the applicant may make an advance directive;

78 10. A provision for breast reconstructive surgery following the medically necessary removal of a
79 breast for any medical reason. Breast reductions shall be covered, if prior authorization has been
80 obtained, for all medically necessary indications. Such procedures shall be considered noncosmetic;

81 11. A provision for payment of medical assistance for annual pap smears;

82 12. A provision for payment of medical assistance services for prostheses following the medically
83 necessary complete or partial removal of a breast for any medical reason;

84 13. A provision for payment of medical assistance which provides for payment for 48 hours of
85 inpatient treatment for a patient following a radical or modified radical mastectomy and 24 hours of
86 inpatient care following a total mastectomy or a partial mastectomy with lymph node dissection for
87 treatment of disease or trauma of the breast. Nothing in this subdivision shall be construed as requiring
88 the provision of inpatient coverage where the attending physician in consultation with the patient
89 determines that a shorter period of hospital stay is appropriate;

90 14. A requirement that certificates of medical necessity for durable medical equipment and any
91 supporting verifiable documentation shall be signed, dated, and returned by the physician, physician
92 assistant, or nurse practitioner and in the durable medical equipment provider's possession within 60
93 days from the time the ordered durable medical equipment and supplies are first furnished by the
94 durable medical equipment provider;

95 15. A provision for payment of medical assistance to (i) persons age 50 and over and (ii) persons
96 age 40 and over who are at high risk for prostate cancer, according to the most recent published
97 guidelines of the American Cancer Society, for one PSA test in a 12-month period and digital rectal
98 examinations, all in accordance with American Cancer Society guidelines. For the purpose of this
99 subdivision, "PSA testing" means the analysis of a blood sample to determine the level of prostate
100 specific antigen;

101 16. A provision for payment of medical assistance for low-dose screening mammograms for
102 determining the presence of occult breast cancer. Such coverage shall make available one screening
103 mammogram to persons age 35 through 39, one such mammogram biennially to persons age 40 through
104 49, and one such mammogram annually to persons age 50 and over. The term "mammogram" means an
105 X-ray examination of the breast using equipment dedicated specifically for mammography, including but
106 not limited to the X-ray tube, filter, compression device, screens, film and cassettes, with an average
107 radiation exposure of less than one rad mid-breast, two views of each breast;

108 17. A provision, when in compliance with federal law and regulation and approved by the Centers
109 for Medicare & Medicaid Services (CMS), for payment of medical assistance services delivered to
110 Medicaid-eligible students when such services qualify for reimbursement by the Virginia Medicaid
111 program and may be provided by school divisions, regardless of whether the student receiving care has
112 an individualized education program or whether the health care service is included in a student's
113 individualized education program. Such services shall include those covered under the state plan for
114 medical assistance services or by the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT)
115 benefit as specified in § 1905(r) of the federal Social Security Act, and shall include a provision for
116 payment of medical assistance for health care services provided through telemedicine services, as
117 defined in § 38.2-3418.16. No health care provider who provides health care services through
118 telemedicine shall be required to use proprietary technology or applications in order to be reimbursed for
119 providing telemedicine services;

120 18. A provision for payment of medical assistance services for liver, heart and lung transplantation

procedures for individuals over the age of 21 years when (i) there is no effective alternative medical or surgical therapy available with outcomes that are at least comparable; (ii) the transplant procedure and application of the procedure in treatment of the specific condition have been clearly demonstrated to be medically effective and not experimental or investigational; (iii) prior authorization by the Department of Medical Assistance Services has been obtained; (iv) the patient selection criteria of the specific transplant center where the surgery is proposed to be performed have been used by the transplant team or program to determine the appropriateness of the patient for the procedure; (v) current medical therapy has failed and the patient has failed to respond to appropriate therapeutic management; (vi) the patient is not in an irreversible terminal state; and (vii) the transplant is likely to prolong the patient's life and restore a range of physical and social functioning in the activities of daily living;

19. A provision for payment of medical assistance for colorectal cancer screening, specifically screening with an annual fecal occult blood test, flexible sigmoidoscopy or colonoscopy, or in appropriate circumstances radiologic imaging, in accordance with the most recently published recommendations established by the American College of Gastroenterology, in consultation with the American Cancer Society, for the ages, family histories, and frequencies referenced in such recommendations;

20. A provision for payment of medical assistance for custom ocular prostheses;

21. A provision for payment for medical assistance for infant hearing screenings and all necessary audiological examinations provided pursuant to § 32.1-64.1 using any technology approved by the United States Food and Drug Administration, and as recommended by the national Joint Committee on Infant Hearing in its most current position statement addressing early hearing detection and intervention programs. Such provision shall include payment for medical assistance for follow-up audiological examinations as recommended by a physician, physician assistant, nurse practitioner, or audiologist and performed by a licensed audiologist to confirm the existence or absence of hearing loss;

This provision shall include an expedited eligibility determination for such women;

23. A provision for the coordinated administration, including outreach, enrollment, re-enrollment and services delivery, of medical assistance services provided to medically indigent children pursuant to this chapter, which shall be called Family Access to Medical Insurance Security (FAMIS) Plus and the FAMIS Plan program in § 32.1-351. A single application form shall be used to determine eligibility for both programs;

24. A provision, when authorized by and in compliance with federal law, to establish a public-private long-term care partnership program between the Commonwealth of Virginia and private insurance companies that shall be established through the filing of an amendment to the state plan for medical assistance services by the Department of Medical Assistance Services. The purpose of the program shall be to reduce Medicaid costs for long-term care by delaying or eliminating dependence on Medicaid for such services through encouraging the purchase of private long-term care insurance policies that have been designated as qualified state long-term care insurance partnerships and may be used as the first source of benefits for the participant's long-term care. Components of the program, including the treatment of assets for Medicaid eligibility and estate recovery, shall be structured in accordance with federal law and applicable federal guidelines;

25. A provision for the payment of medical assistance for otherwise eligible pregnant women during the first five years of lawful residence in the United States, pursuant to § 214 of the Children's Health Insurance Program Reauthorization Act of 2009 (P.L. 111-3);

26. A provision for the payment of medical assistance for medically necessary health care services provided through telemedicine services, as defined in § 38.2-3418.16, regardless of the originating site or whether the patient is accompanied by a health care provider at the time such services are provided. No health care provider who provides health care services through telemedicine services shall be required to use proprietary technology or applications in order to be reimbursed for providing telemedicine services.

For the purposes of this subdivision, "originating site" means any location where the patient is located, including any medical care facility or office of a health care provider, the home of the patient, the patient's place of employment, or any public or private primary or secondary school or postsecondary institution of higher education at which the person to whom telemedicine services are

provided is located;

27. A provision for the payment of medical assistance for the dispensing or furnishing of up to a 12-month supply of hormonal contraceptives at one time. Absent clinical contraindications, the Department shall not impose any utilization controls or other forms of medical management limiting the supply of hormonal contraceptives that may be dispensed or furnished to an amount less than a 12-month supply. Nothing in this subdivision shall be construed to (i) require a provider to prescribe, dispense, or furnish a 12-month supply of self-administered hormonal contraceptives at one time or (ii) exclude coverage for hormonal contraceptives as prescribed by a prescriber, acting within his scope of practice, for reasons other than contraceptive purposes. As used in this subdivision, "hormonal contraceptive" means a medication taken to prevent pregnancy by means of ingestion of hormones, including medications containing estrogen or progesterone, that is self-administered, requires a prescription, and is approved by the U.S. Food and Drug Administration for such purpose; and

28. A provision for payment of medical assistance for remote patient monitoring services provided via telemedicine, as defined in § 38.2-3418.16, for (i) high-risk pregnant persons; (ii) medically complex infants and children; (iii) transplant patients; (iv) patients who have undergone surgery, for up to three months following the date of such surgery; and (v) patients with a chronic health condition who have had two or more hospitalizations or emergency department visits related to such chronic health condition in the previous 12 months. For the purposes of this subdivision, "remote patient monitoring services" means the use of digital technologies to collect medical and other forms of health data from patients in one location and electronically transmit that information securely to health care providers in a different location for analysis, interpretation, and recommendations, and management of the patient. "Remote patient monitoring services" includes monitoring of clinical patient data such as weight, blood pressure, pulse, pulse oximetry, blood glucose, and other patient physiological data, treatment adherence monitoring, and interactive videoconferencing with or without digital image upload; and

29. A provision for the payment of medical assistance incurred in the provision of pasteurized donated human breast milk, which shall include human milk fortifiers if indicated in a medical order provided by a licensed medical practitioner, provided that:

- a. The covered person is an infant under the age of six months;
- b. The milk is obtained from a human milk bank that meets quality guidelines established by the Department of Health; and
- c. A licensed medical practitioner has issued a written order for the provision of such human breast milk for an infant who:

(1) Is medically or physically unable to receive maternal breast milk or participate in breastfeeding or whose mother is medically or physically unable to produce maternal breast milk in sufficient quantities or participate in breastfeeding despite optimal lactation support; or

(2) Meets any of the following conditions:

- (A) A body weight below healthy levels determined by the licensed medical practitioner;
- (B) A congenital or acquired condition that places the infant at a high risk for development of necrotizing enterocolitis; or
- (C) A congenital or acquired condition that may benefit from the use of such human breast milk as determined by the Department of Health.

B. In preparing the plan, the Board shall:

1. Work cooperatively with the State Board of Health to ensure that quality patient care is provided and that the health, safety, security, rights and welfare of patients are ensured.

2. Initiate such cost containment or other measures as are set forth in the appropriation act.

3. Make, adopt, promulgate and enforce such regulations as may be necessary to carry out the provisions of this chapter.

4. Examine, before acting on a regulation to be published in the Virginia Register of Regulations pursuant to § 2.2-4007.05, the potential fiscal impact of such regulation on local boards of social services. For regulations with potential fiscal impact, the Board shall share copies of the fiscal impact analysis with local boards of social services prior to submission to the Registrar. The fiscal impact analysis shall include the projected costs/savings to the local boards of social services to implement or comply with such regulation and, where applicable, sources of potential funds to implement or comply with such regulation.

5. Incorporate sanctions and remedies for certified nursing facilities established by state law, in accordance with 42 C.F.R. § 488.400 et seq. "Enforcement of Compliance for Long-Term Care Facilities With Deficiencies."

6. On and after July 1, 2002, require that a prescription benefit card, health insurance benefit card, or other technology that complies with the requirements set forth in § 38.2-3407.4:2 be issued to each recipient of medical assistance services, and shall upon any changes in the required data elements set forth in subsection A of § 38.2-3407.4:2, either reissue the card or provide recipients such corrective information as may be required to electronically process a prescription claim.

C. In order to enable the Commonwealth to continue to receive federal grants or reimbursement for medical assistance or related services, the Board, subject to the approval of the Governor, may adopt, regardless of any other provision of this chapter, such amendments to the state plan for medical assistance services as may be necessary to conform such plan with amendments to the United States Social Security Act or other relevant federal law and their implementing regulations or constructions of these laws and regulations by courts of competent jurisdiction or the United States Secretary of Health and Human Services.

In the event conforming amendments to the state plan for medical assistance services are adopted, the Board shall not be required to comply with the requirements of Article 2 (§ 2.2-4006 et seq.) of Chapter 40 of Title 2.2. However, the Board shall, pursuant to the requirements of § 2.2-4002, (i) notify the Registrar of Regulations that such amendment is necessary to meet the requirements of federal law or regulations or because of the order of any state or federal court, or (ii) certify to the Governor that the regulations are necessitated by an emergency situation. Any such amendments that are in conflict with the Code of Virginia shall only remain in effect until July 1 following adjournment of the next regular session of the General Assembly unless enacted into law.

D. The Director of Medical Assistance Services is authorized to:

1. Administer such state plan and receive and expend federal funds therefor in accordance with applicable federal and state laws and regulations; and enter into all contracts necessary or incidental to the performance of the Department's duties and the execution of its powers as provided by law.

2. Enter into agreements and contracts with medical care facilities, physicians, dentists and other health care providers where necessary to carry out the provisions of such state plan. Any such agreement or contract shall terminate upon conviction of the provider of a felony. In the event such conviction is reversed upon appeal, the provider may apply to the Director of Medical Assistance Services for a new agreement or contract. Such provider may also apply to the Director for reconsideration of the agreement or contract termination if the conviction is not appealed, or if it is not reversed upon appeal.

3. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with any provider who has been convicted of or otherwise pled guilty to a felony, or pursuant to Subparts A, B, and C of 42 C.F.R. Part 1002, and upon notice of such action to the provider as required by 42 C.F.R. § 1002.212.

4. Refuse to enter into or renew an agreement or contract, or elect to terminate an existing agreement or contract, with a provider who is or has been a principal in a professional or other corporation when such corporation has been convicted of or otherwise pled guilty to any violation of § 32.1-314, 32.1-315, 32.1-316, or 32.1-317, or any other felony or has been excluded from participation in any federal program pursuant to 42 C.F.R. Part 1002.

5. Terminate or suspend a provider agreement with a home care organization pursuant to subsection E of § 32.1-162.13.

For the purposes of this subsection, "provider" may refer to an individual or an entity.

E. In any case in which a Medicaid agreement or contract is terminated or denied to a provider pursuant to subsection D, the provider shall be entitled to appeal the decision pursuant to 42 C.F.R. § 1002.213 and to a post-determination or post-denial hearing in accordance with the Administrative Process Act (§ 2.2-4000 et seq.). All such requests shall be in writing and be received within 15 days of the date of receipt of the notice.

The Director may consider aggravating and mitigating factors including the nature and extent of any adverse impact the agreement or contract denial or termination may have on the medical care provided to Virginia Medicaid recipients. In cases in which an agreement or contract is terminated pursuant to subsection D, the Director may determine the period of exclusion and may consider aggravating and mitigating factors to lengthen or shorten the period of exclusion, and may reinstate the provider pursuant to 42 C.F.R. § 1002.215.

F. When the services provided for by such plan are services which a marriage and family therapist, clinical psychologist, clinical social worker, professional counselor, or clinical nurse specialist is licensed to render in Virginia, the Director shall contract with any duly licensed marriage and family therapist, duly licensed clinical psychologist, licensed clinical social worker, licensed professional counselor or licensed clinical nurse specialist who makes application to be a provider of such services, and thereafter shall pay for covered services as provided in the state plan. The Board shall promulgate regulations which reimburse licensed marriage and family therapists, licensed clinical psychologists, licensed clinical social workers, licensed professional counselors and licensed clinical nurse specialists at rates based upon reasonable criteria, including the professional credentials required for licensure.

G. The Board shall prepare and submit to the Secretary of the United States Department of Health and Human Services such amendments to the state plan for medical assistance services as may be permitted by federal law to establish a program of family assistance whereby children over the age of 18 years shall make reasonable contributions, as determined by regulations of the Board, toward the cost of

305 providing medical assistance under the plan to their parents.

306 H. The Department of Medical Assistance Services shall:

307 1. Include in its provider networks and all of its health maintenance organization contracts a
308 provision for the payment of medical assistance on behalf of individuals up to the age of 21 who have
309 special needs and who are Medicaid eligible, including individuals who have been victims of child abuse
310 and neglect, for medically necessary assessment and treatment services, when such services are delivered
311 by a provider which specializes solely in the diagnosis and treatment of child abuse and neglect, or a
312 provider with comparable expertise, as determined by the Director.

313 2. Amend the Medallion II waiver and its implementing regulations to develop and implement an
314 exception, with procedural requirements, to mandatory enrollment for certain children between birth and
315 age three certified by the Department of Behavioral Health and Developmental Services as eligible for
316 services pursuant to Part C of the Individuals with Disabilities Education Act (20 U.S.C. § 1471 et seq.).

317 3. Utilize, to the extent practicable, electronic funds transfer technology for reimbursement to
318 contractors and enrolled providers for the provision of health care services under Medicaid and the
319 Family Access to Medical Insurance Security Plan established under § 32.1-351.

320 4. Require any managed care organization with which the Department enters into an agreement for
321 the provision of medical assistance services to include in any contract between the managed care
322 organization and a pharmacy benefits manager provisions prohibiting the pharmacy benefits manager or
323 a representative of the pharmacy benefits manager from conducting spread pricing with regards to the
324 managed care organization's managed care plans. For the purposes of this subdivision:

325 "Pharmacy benefits management" means the administration or management of prescription drug
326 benefits provided by a managed care organization for the benefit of covered individuals.

327 "Pharmacy benefits manager" means a person that performs pharmacy benefits management.

328 "Spread pricing" means the model of prescription drug pricing in which the pharmacy benefits
329 manager charges a managed care plan a contracted price for prescription drugs, and the contracted price
330 for the prescription drugs differs from the amount the pharmacy benefits manager directly or indirectly
331 pays the pharmacist or pharmacy for pharmacist services.

332 I. The Director is authorized to negotiate and enter into agreements for services rendered to eligible
333 recipients with special needs. The Board shall promulgate regulations regarding these special needs
334 patients, to include persons with AIDS, ventilator-dependent patients, and other recipients with special
335 needs as defined by the Board.

336 J. Except as provided in subdivision A 1 of § 2.2-4345, the provisions of the Virginia Public
337 Procurement Act (§ 2.2-4300 et seq.) shall not apply to the activities of the Director authorized by
338 subsection I of this section. Agreements made pursuant to this subsection shall comply with federal law
339 and regulation.

340 **§ 38.2-3418.21. Coverage for expenses incurred in the provision of donated human breast milk.**

341 A. Notwithstanding the provisions of § 38.2-3419, each insurer proposing to issue individual or
342 group accident and sickness insurance policies providing hospital, medical and surgical, or major
343 medical coverage on an expense-incurred basis; each corporation providing individual or group
344 accident and sickness subscription contracts; and each health maintenance organization providing a
345 health care plan for health care services shall provide coverage for expenses incurred in the provision
346 of pasteurized donated human breast milk, which shall include human milk fortifiers if indicated in a
347 medical order provided by a licensed medical practitioner, provided that:

348 1. The covered person is an infant under the age of six months;

349 2. The milk is obtained from a human milk bank that meets quality guidelines established by the
350 Department of Health; and

351 3. A licensed medical practitioner has issued a written order for the provision of such human breast
352 milk for an infant who:

353 a. Is medically or physically unable to receive maternal breast milk or participate in breastfeeding or
354 whose mother is medically or physically unable to produce maternal breast milk in sufficient quantities
355 or participate in breastfeeding despite optimal lactation support; or

356 b. Meets any of the following conditions:

357 (1) A body weight below healthy levels determined by the licensed medical practitioner;

358 (2) A congenital or acquired condition that places the infant at a high risk for development of
359 necrotizing enterocolitis; or

360 (3) A congenital or acquired condition that may benefit from the use of such human breast milk as
361 determined by the Department of Health.

362 B. If there is no supply of donated human breast milk that meets the requirements of subdivision A 2,
363 the insurer, corporation, or health maintenance organization shall not be required to provide coverage
364 of expenses pursuant to this section.

365 C. Nothing in this section shall preclude the insurer, corporation, or health maintenance
366 organization from performing utilization review, including periodic review of the medical necessity of a

particular service.

D. No insurer, corporation, or health maintenance organization shall impose upon any person receiving benefits pursuant to this section any copayment, fee, or condition that is not equally imposed upon all individuals in the same benefit category.

E. The provisions of this section shall apply to any policy, contract, or plan delivered, issued for delivery, or renewed in the Commonwealth on and after January 1, 2023.

F. The provisions of this section shall not apply to short-term travel, accident-only, or limited or specified disease policies; contracts designed for issuance to persons eligible for coverage under Title XVIII of the Social Security Act, known as Medicare, or any other similar coverage under state or federal governmental plans; or short-term nonrenewable policies of not more than six months' duration.
