

22100324D

SENATE BILL NO. 357

Offered January 12, 2022

Prefiled January 11, 2022

A *BILL to amend and reenact § 62.1-132.3:4 of the Code of Virginia, relating to Waterway Maintenance Grant Program.*

Patron—Stuart

Referred to Committee on Agriculture, Conservation and Natural Resources

Be it enacted by the General Assembly of Virginia:**1. That § 62.1-132.3:4 of the Code of Virginia is amended and reenacted as follows:****§ 62.1-132.3:4. Virginia Waterway Maintenance Grant Program.**

A. Once each fiscal year, the Authority shall award a grant of funds to a qualified applicant or applicants to support a dredging project or projects that have been approved by the Authority. The source of the grant funds shall be the Virginia Waterway Maintenance Fund created pursuant to § 62.1-132.3:3. Applicants shall be limited to political subdivisions and the governing bodies of Virginia localities.

B. The Authority shall develop guidelines establishing an application process, procedures for evaluating the feasibility of a proposed dredging project, and procedures for awarding grants. The guidelines and procedures shall be exempt from the Administrative Process Act (§ 2.2-4000 et seq.). The guidelines and procedures shall provide that:

1. The Authority shall evaluate each application to determine its completeness, the sufficiency of its justification for the proposed project, the status of any necessary permits, the adequacy of its project management organization, and the potential beneficial use of dredged materials for the purpose of mitigation of coastal erosion, flooding, or other purposes for the common good.

2. The Authority shall not require any level of matching contributions from the applicant.

3. No award of a grant shall support any dredging project for a solely privately owned marina or dock. *However, the Authority may award a grant to a political subdivision or governing body for the dredging of a waterway channel with a bottom that is privately owned if such political subdivision or governing body holds a lease of such bottom with a term of 25 years or more.*

4. Prior to receipt of a grant, the applicant shall enter into a memorandum of understanding with the Authority establishing the requirements for the use of the grant funds.

C. Projects for which the Authority may award grant funding include (i) feasibility and cost evaluations, pre-project engineering studies, and project permitting and contracting costs for a waterway project conducted by the Commonwealth; (ii) the state portion of a nonfederal sponsor funding requirement for a federal project, which may include the beneficial use of dredged materials that are not covered by federal funding; (iii) the Commonwealth's maintenance of shallow-draft navigable waterway channel maintenance dredging and the construction and management of areas for the placement of dredged material; and (iv) the beneficial use, for environmental restoration and the mitigation of coastal erosion or flooding, of dredged materials from waterway projects conducted by the Commonwealth.
