Referred to Committee on Transportation

Be it enacted by the General Assembly of Virginia:

1. That §§ 46.2-772 and 46.2-773 of the Code of Virginia are amended and reenacted as follows:

§ 46.2-772. Highway use fee.

A. Except as provided in subsection C, there is hereby imposed an annual highway use fee on any motor vehicle registered in the Commonwealth under § 46.2-694 or 46.2-697 that is an alternative fuel vehicle, an electric motor vehicle, or a fuel-efficient vehicle. The fee shall be collected by the Department at the time of vehicle registration. If the vehicle is registered for a period of other than one year as provided in § 46.2-646, the highway use fee shall be multiplied by the number of years or fraction thereof that the vehicle will be registered.

B. For an electric motor vehicle, the highway use fee shall be 85 percent of the amount of taxes paid under subsection A of § 58.1-2217 on fuel used by a vehicle with a combined fuel economy of 23.7 miles per gallon for the average number of miles traveled by a passenger vehicle in the Commonwealth, as determined by the Commissioner. For all other fuel-efficient vehicles, the highway use fee shall be 85 percent of the difference between the tax paid under subsection A of § 58.1-2217 on the fuel used by a vehicle with a combined fuel economy of 23.7 miles per gallon for the average number of miles traveled by a passenger vehicle in the Commonwealth in a year, as determined by the Commissioner, and the tax paid under subsection A of § 58.1-2217 on the fuel used by the vehicle being registered for the average number of miles traveled by a passenger vehicle in the Commonwealth in a year, as determined by the Commissioner.

For purposes of this chapter, the Commissioner shall use combined fuel economy as determined by the manufacturer of the vehicle. If the Commissioner is unable to obtain the manufacturer's fuel economy for a vehicle, then the Commissioner shall use the final estimate of average fuel economy, as determined by the U.S. Environmental Protection Agency, of (i) all trucks having the same model year as the vehicle being registered, if the vehicle has a gross weight between 6,000 pounds and 10,000 pounds, or (ii) all cars having the same model year as the vehicle. If data is not available for the model year of the vehicle being registered, then the Commissioner shall use available data for the model year that is closest to the model year of the vehicle being registered.

The Commissioner shall update the fees calculated under this section by July 1 of each year.

C. This section shall not apply to:

1. An autocycle, moped, or motorcycle;
2. A vehicle with a gross weight over 10,000 pounds;
3. A vehicle that is owned by a governmental entity as defined in § 58.1-2201; or
4. A vehicle that is registered under the International Registration Plan.

A vehicle shall not be subject to the fee set forth in this section in any year in which such vehicle is registered to participate in the mileage-based user fee program established pursuant to § 46.2-773.

D. In any case where an applicant has requested a refund and is eligible for a refund pursuant to § 46.2-688, the Commissioner shall refund to the applicant a proration, in six-month increments, of the total cost of the highway use fee if application for the refund is made when there are six or more months remaining in the registration period.

§ 46.2-773. Mileage-based user fee program.

A. There is hereby established a mileage-based user fee program. The program shall be a voluntary program that allows owners of vehicles subject to the highway use fee pursuant to § 46.2-772 to pay a mileage-based fee in lieu of the highway use fee. No owner of a motor vehicle registered in the Commonwealth shall be required to participate in the program established pursuant to this section.

B. In any year that an owner pays the fee set forth in this section, such owner shall not be subject to the fee set forth in § 46.2-772 for the same vehicle. In no case shall the fees paid pursuant to this section during a 12-month period exceed the annual highway use fee that would have otherwise been paid.

C. The fee schedule for the mileage-based user fee program shall be calculated by dividing the
