The bill requires each school board to equip each public elementary and secondary school building in the local school division with at least one panic alarm that adheres to nationally recognized industry standards, including the standards of the National Fire Protection Association and Underwriters Laboratories, and is installed by a licensed and qualified professional. The bill defines "panic alarm" as a silent security system by which the user manually activates a device that sends a non-audible signal to the local law-enforcement agency that indicates a school security emergency, including a non-fire evacuation, lockdown, or active shooter situation, that requires immediate response and assistance from such agency.
