4. Title: Health insurance; coverage for polycystic ovary syndrome (PCOS).

5. Summary: Requires health insurers, health maintenance organizations, and corporations providing health care coverage subscription contracts to provide coverage for treatment of PCOS, if diagnosed by a gynecologist, endocrinologist, primary care physician, pediatrician, nurse practitioner, dermatologist, or infertility specialist. The bill specifies which types of treatment will be covered for PCOS. The bill applies to policies, contracts, and plans delivered, issued for delivery, or renewed on and after January 1, 2023.

6. Budget Amendment Necessary: See item 8

7. Fiscal Impact Estimates: See item 8

8. Fiscal Implications: Per the Department of Human Resource Management, this bill has a fiscal impact of \$934,000 to the state Health Insurance Fund (HIF). This estimate was made under the assumptions that 10% of women age 10 to 60 have PCOS, and that 10% of women with PCOS will use hair removal treatment. In that estimate, it is also assumed infertility treatment includes drug therapy, but not IVF.

The HIF is funded through monthly premium contributions by state agencies, state employees, and eligible retirees. This legislation is expected to lead to an increase in expenditures from the HIF, which may result in higher health insurance premiums. Based on recent premium trends, the general fund pays an estimated 43 percent of premiums into the HIF. The general fund share of the costs described above is approximately \$401,620.

The State Corporation Commission and Department of Medical Assistance Services anticipate no fiscal impact with this bill.
