4. Title: Sentencing guidelines

5. Summary: The substitute bill amends § 19.2-298.01 (Use of discretionary sentencing guidelines) to establish that in any felony case, other than Class 1 felonies, in which the court imposes a sentence that is either greater or less than that indicated by the discretionary sentencing guidelines, the court must file with the record of the case a written explanation of such departure. The written explanation must adequately explain the sentence imposed to promote fair sentencing.

The bill also establishes that a court's ruling on a defendant's objection to the calculation of the discretionary sentencing guidelines is reviewable upon appeal. The failure to follow any or all of the provisions of this section or the failure to follow any or all of the provisions of this section in the prescribed manner, including the failure to provide a written explanation that adequately explains the sentence imposed, shall be reviewable on appeal or may be the basis of any other post-conviction relief. The failure to provide a written explanation that adequately explains the sentence imposed is reversible error.

The provisions of the bill apply only to those sentencing hearings conducted and such sentences imposed on or after July 1, 2022.
